

Compost Filter Sock

Sediment Control BMP alternative to silt fence & straw wattles

PERIMETERS

INLETS

DITCHES

SLOPES

MULTIPLE USES

Use for perimeters, inlets, ditches, and slopes
Available on pallets in precut or continuous lengths

FASTER INSTALLATION

No trenching required
Installs faster than silt fence & wattles

BETTER PERFORMANCE

Superior flow through & filtering

LESS MAINTENANCE

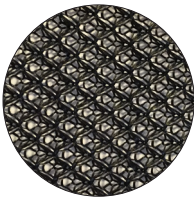

Stays in place & won't fall down

QUICKER REMOVAL

Just cut netting & spread compost

Netting Specs:

Netting Material Type	Heavy Duty Multi-Filament Polypropylene (MFPP)
Netting Degradation	Photodegradable
Netting Diameters	5", 8", 12", 18", 24"
Netting Opening Size	1/8"
Netting Color	Black; Black/Green Stripe
Fabric Tensile Strength (ASTM D4595)	546 lbs
Functional Longevity	up to 5 years
